

Student profile sheet

The student profile sheet is designed as a means of collecting relevant information such as interests, family background, skills, social abilities, about the students in a group/ class. It is helpful because it gives the teacher an idea of how the student functions in a social environment. Students are asked to fill in such a profile sheet at the beginning of the school year, but it could also be used before the escape room games being adapted in order to provide relevant information that would help the teacher understand the students' personalities, needs and interests.

Material required

Paper, writing tools, Pc, tablet, smart phone

Possible uses

It provides an insight into the student social scene, helping the teacher overcome and avoid possible difficulties as well as conduct the escape room activities in favorable conditions.

Possible restrictions

Some students might not feel comfortable with sharing personal information.

Is it inclusive for SLD?

Some students might need help reading and completing the profile sheet.
