

My best friend

Introduction

- **Level:** A2
- **Skills:** Reading, Speaking
- **Topics:** Vocabulary - appearance
- **Merging subjects:** Creative thinking, problem-solving, critical thinking

The enigma

- **Keywords**

Students read a person's description and choose the right picture.

- **Toolbox**

Cards

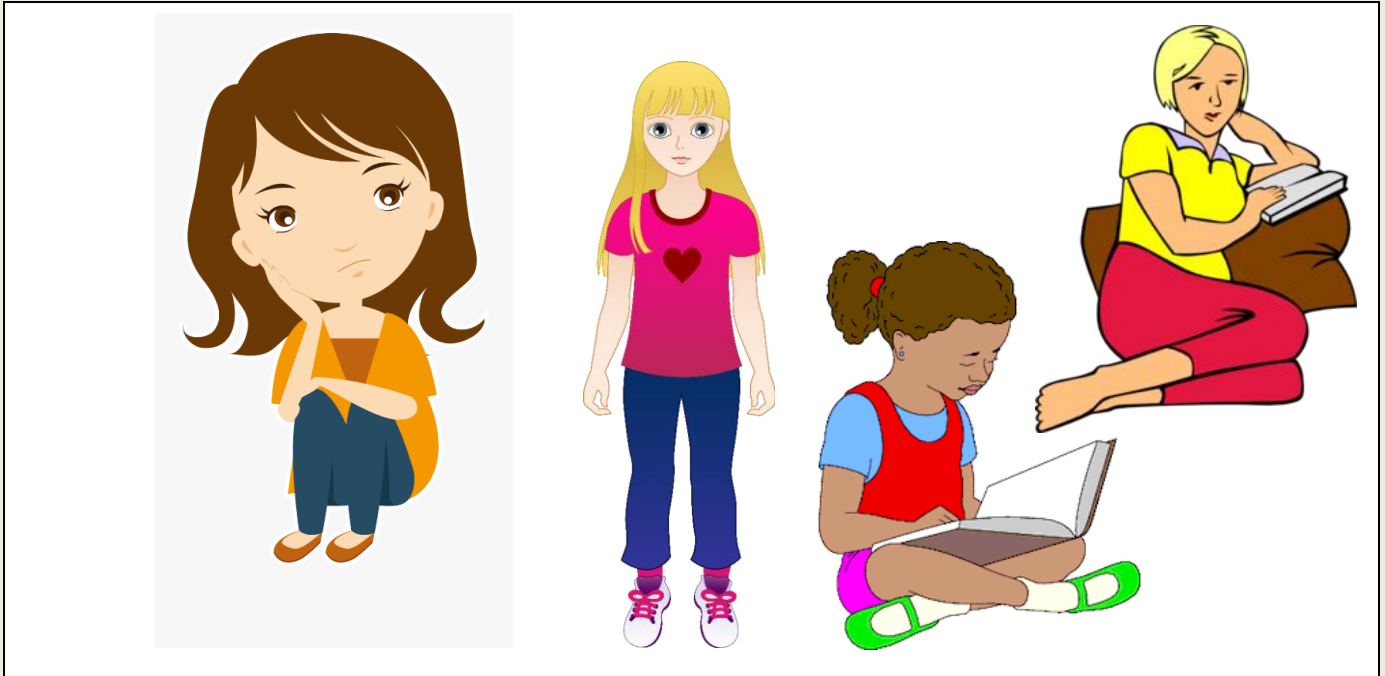

- **Description of the enigma**

Students see four different pictures on the desk. First, they have to find the person's description in order to choose the right picture. Then, they have to use the information found on the other side of the photo in order to proceed.

My best friend

Teachers can use the following pictures:

The teacher has crumbled a paper with the following information and left it on the desk next to the pictures.

"My best friend is quite tall and thin. She has long brown straight hair and beautiful big brown eyes. She sometimes wears her glasses, especially when she is at school. She usually wears jeans and a T-shirt. Her favourite cartoon character is Bugs Bunny".

When students decide which photo is the right one, they have to use the word written on the other side of it. For example, if the word at the back of the right picture says "bin" they have to look in the bin. The teacher can use any word that relates to items found in the room.

My best friend

Hints

In case students do not know how to proceed with the enigma, the teacher can guide them using questions such as “Which picture is the correct one?”, “Where can you find the description?”, “Is there something written on the card?”

All the pictures should have a word written so that students have to decide which picture is correct according to the description.

More information

Possible restrictions

Some students might have difficulty with reading the description. For this reason, the font should be big enough for students with eyesight problems.
