

# Riddle generator

This resource will give the language teacher ready-made riddles that are a part of the enigmas and clues which an escape room is based on. In this case, it is an easy-to-use webpage where teachers and game masters can find:

- A vast variety of riddles (and the answers) that they can use in the classroom and in the game. **Who am I riddle:** I'm a god, a planet, and measurer of heat. Who am I? 'Mercury'.
- Riddles classified by the level of difficulty, length, age of player/student and type of riddle. **Kid's riddle:** What belongs to you, but other people use it more than you? 'Your name'.
- Video riddles that can make this type of task in the game more visual and attractive as, normally, when teachers and students think of riddles, they see written clues.

The use of riddles in escape rooms can help improve student's skills as they have to read, comprehend, debate and listen to come up with the right answer.
