Which one is it?

Introduction

- **Level:** B2
- **Skills:** Writing
- **Topics:** Grammar | Future Perfect Continuous

The enigma

- **Keywords**

 This enigma is a simulated multiple-choice exercise designed to practice the future perfect continuous.

- **Toolbox**

 Projector, printed QR code, smartphone

- **Description of the enigma**

Place a projector in the room and project the following examples one by one. The answers and choices the players have will be printed as cards and they can place them in the blanks.

Once they find the correct answer, they will be given a piece of a puzzle. This will happen for the next sentences as well.

Once they have completed the activity, they will have to put together the pieces of the puzzle they have earned, which will have a QR code leading to a picture of the Colosseum. They will then use the word "colosseum" as a code to unlock the next clue.
