- **Merging subjects:** Teamwork

The enigma

- **Keywords**

Food, flashcards, magnets

- **Toolbox**

Flashcards, magnets

- **Description of the enigma**

Students find flashcards presenting different kinds of food and they need to use words and pictures to sort the food into the columns. This could be displayed on a board as well and the pictures and words placed on it with magnets. It would allow students to move them into the correct category. Once they sort the food, the number of the words in columns will be the keycode.

Food

Seafood

Fish
Squid

Dairy

Milk

Fruit

Grapes
Bananas
Apricots

Drinks

Orange juice
Lemonade

Solution

2132

Food

Hints

In case the students have difficulty putting words into categories, the teacher/GM might decide to provide them with a definition of the word they are trying to find.

More information

Possible restrictions

Students with visual impairment problems might find it difficult.
