## The enigma

- **Keywords**

The players will have to find the different stickers with images around the room matching the definition given on the poster. Once they think they have the correct definition and the object, players have to place the object under the correct definition. An example has been made with 4 words and a template is provided below which can be completed with any other words. The stickers should be placed on the walls, chairs, tables or any surface from the room and once they take the sticker from its place a number should be revealed underneath. Once they've added all the stickers on the poster, they should notice all the numbers. The combination of those 4 numbers is the key to the next puzzle.

- **Toolbox**

stickers (a plane, ticket/boarding pass, a tourist, a map), printed poster.
