Introduction

- **Level:** B1
- **Skills:** Writing
- **Topics:** Vocabulary (Money/Financial matters) and Grammar (First Conditional, Questions, short answers, question tags)

The enigma

- **Keywords**

PowerPoint, Graph

- **Toolbox**

PowerPoint (below), a computer, a computer mouse without right-click (broken or disabled)

- **Description of the enigma**

The players are newcomers in a trading company. They have to move from trainee to expert by resolving tests and problems.

In the first stage, they will access a computer where a PowerPoint is displayed. The players must go along this Q/A session to move from trainee to employee. The players can only use the buttons on the slides to move from slide to slide.

At the end, they will obtain a code to open a locker and access the content of a vault or box and move on to the next enigmas.

Additional enigmas:

Find the switch to power the screen,

Find the mouse to connect to the computer.

Welcome to X-Crop

Hints

As the PowerPoint already points out the bad answers, the users should understand clearly where the mistakes are.

More information

Possible restrictions

Make sure that your graph is big enough and is suitable for learners with SLDs. You have all our recommendations in our guide on the website :)
