The enigma

- **Keywords**

The class is divided into two groups. Each group gets a list of words. On turn, the participants have to form sentences describing the words given on the list. The other group has to recognize the word in 10 seconds and write the initial letter in the quiz-box. Both groups have to discover the same “secret word” and they can only ask one “Yes/No question” to find the answer. They must write the letters in their correct position according to the number of the sentence. The missing letters will be discovered by solving another enigma. The first group to finish the enigma wins.
