

# Relationships

## Introduction

- **Level:** B1
- **Skills:** Listening
- **Topics:** Vocabulary
- **Merging subjects:** Music

## The enigma

- **Keywords**

Players are going to listen to a well - known music track in order to find the clue.

- **Toolbox**

Well-known music track and two umbrellas

- **Description of the enigma**

Students are going to listen to the chorus of Rihanna's famous love song "Umbrella". The students need to understand the topic of the song which is "umbrella". The teacher should place a tab with letters and numbers fixed on the wall (example: um:4; to:0; erb:1; br:2; la:5; el:9; le:3; of:8; go:7; gl: 6). The students' task is to turn the word umbrella into numbers: um-br-el-la: 4-2-9-5. In this way students will come to the code. It allows them to open the chest with this code. After that, students find an object to guide them to the next enigma which can be for example two umbrellas with a code under it.

**Listen to a well - known music track and find the clue!**

# Relationships

## Solution

The code is 4295.

## Hints

The teacher asks students how many syllables are there in the word umbrella?

## More information

## Possible restrictions

Students with Dysgraphia may encounter some problems.
