Students access the following link to do an online matching activity:

https://www.educaplay.com/learning-resources/9978992-group_the_sentences.html

Students have to group the following sentences in the right group (right/wrong sentences) with reference to the structure followed when we form sentences in the Simple Past tense.

Where did you went on holiday last year?

My brother often helped me with my homework.

The scientist stayed in the desert until he ran out of food.

What Louis did to prepare for the storm?

The score of the soccer game was 4-3 seconds before the end of the game.

When I knocked the door, I hear footsteps towards the door.

They didn't helped me with the luggage.

She owned a big mansion where no one wanted to go.

The number of the right and wrong sentences make the first two digits of the combination they will need to unlock the lock.

Possible restrictions

Students with vision problems might have difficulty in reading the sentences on the computer screen, because of the default small font size.

Although the activity does not ask students to correct the wrong sentences, it might still be quite challenging for students with learning disorders.
